                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         Patent No. 6914128

GENERAL INFORMATION:
APPLICANT: Jochen, Salfeld et al.
TITLE OF INVENTION: Human Antibodies That Bind Human IL-12 And Methods For Producing FILE REFERENCE: BBI-093CP
CURRENT APPLICATION NUMBER: US/09/534,717
CURRENT FILING DATE: 2000-03-24
EARLIER APPLICATION NUMBER: 60126,603
EARLIER FILING DATE: March 25, 1999
NUMBER OF SEQ ID NOS: 675
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           CURRENT APPLICATION NUMBER: US/09/534,717

PATENT NO. 6914128

GENERAL INFORMATION:
APPLICANT: JOChen, Salfeld et al.
TITLE OF INVENTION: Human Antibodies That Bind Hur
FILE REFERENCE: BB1-093CP
CURRENT APPLICATION NUMBER: US/09/534,717
CURRENT FILING DATE: 2000-03-24
EARLIER APPLICATION NUMBER: 60/126,603
EARLIER FILING DATE: March 25, 1999
NUMBER OF SEQ ID NOS: 675
SOCTWARE: PATENTIN Ver. 2.0
SEQ ID NO 628
LENGTH: 98
TYPE: PRT
RESULT 16

Patent No. 6914128

GENERAL INFORMATION:
APPLICANT: Jochen, Salfeld et al.
TITLE OF INVENTION: Human Antibodies That Bind Human IL-12 And Methods For Producing FILE REFERENCE: BBI-093CP
CURRENT APPLICATION NUMBER: US/09/534,717
CURRENT FILING DATE: 2000-03-24
EARLIER APPLICATION NUMBER: 60/126,603
EARLIER TILING DATE: March 25, 1999
NUMBER OF SEQ ID NOS: 675
SOUTWARE: Patentin Ver. 2.0

SEQ ID NO 627
LENGTH: 98
TYPE: PRT
